Dear Trustee:

The College of Pharmacy is currently seeking the support of several foundations and would like to find out more about your organization. Could you please send us information regarding what kinds of medical research, scholarships for higher education and activities that you may support. Also please forward any application forms you may have.

Our professors are currently involved with research in the areas which involve pharmacodynamics, pharmaceutics, pharmacy health care administration, medicinal chemistry, and pharmacy practice. One topic of special interest includes disease-oriented research.

Your time and effort are greatly appreciated.

Thank you,

*Victoria Redd Patterson*
